**British Women's Travel to Greece, 1840–1914 Jun 07 2021 Beginning with the publication of the first Murray guidebook to Greece in 1840 and ending with Virginia Woolf's journey to Athens, this book offers a genealogy of British women's travel literature about Greece. Churnjeet Mahn recounts the women's first-hand experiences of the sites and sights of antiquity, analyzing travel accounts by archaeologists, ethnographers, journalists, and tourists to chart women's renderings of Modern Greece through a series of discursive lenses. Mahn's offers insights into the importance of the Murray and Baedeker guidebooks; how knowledge of Greece and Classical Studies were used to justify colonial rule of India at the same time that Agnes Smith Lewis and Jane Ellen Harrison used Greece as a symbol of women's emancipation; British women's production of the first anthropological accounts of Modern Greece; and fin-de-siècle women who asserted their right to see and claim antiquity at the same time that the**

**Gulliver's Travels Mar 04 2021 Shipwrecked and cast adrift, Lemuel Gulliver wakes to find himself on Lilliput, an island inhabited by little people, whose height makes their quarrels over fashion and fame seem ridiculous. His subsequent encounters - with the crude giants of Brobdingnag, the philosophical Houyhnhnms and the brutish Yahoos give Gulliver new, bitter insights into human behavior. Swift's savage satire view mankind in a distorted hall of mirrors as a diminished, magnified and finally bestial species, presenting us with an uncompromising reflection of ourselves.**

**Travels with a Tangerine Nov 24 2022 In 1325, the great Arab traveler Ibn Battutah set out from his native Tangier in North Africa on pilgrimage to Mecca. By the time he returned nearly thirty years later, he had seen most of the known world, covering three times the distance allegedly traveled by the great Venetian explorer Marco Polo—some 75,000 miles in all. Captivated by Ibn Battutah's account of his journey, the Arabic scholar and award-winning travel writer Tim Mackintosh-Smith set out to follow in the peripatetic Moroccan's footsteps. Traversing Egyptian deserts and remote islands in the Arabian Sea, visiting castles in Syria and innumerable souks in medieval Islam's great cities, Mackintosh-Smith sought clues to Ibn Battutah's life and times, encountering the ghost of "IB" in everything from**

*place names (in Tangier alone, a hotel, street, airport, and ferry bear IB's name), to dietary staples to an Arabic online dating service— and introducing us to a world of unimaginable wonders. By necessity, Mackintosh-Smith's journey may have cut some corners ("I only wish I had the odd thirty years to spare, and Ibn Battutah's enviable knack of extracting large amounts of cash, robes and slaves from compliant rulers.") But in this wry, evocative, and uniquely engaging travelogue, he spares no effort in giving readers an unforgettable glimpse into both the present-day and fourteenth-century Islamic worlds.*

*Travel and Transformation Apr 17 2022 Travel and tourism have a long association with the notion of transformation, both in terms of self and social collectives. What is surprising, however, is that this association has, on the whole, remained relatively underexplored and unchallenged, with little in the way of a corpus of academic literature surrounding these themes. Instead, much of the literature to date has focused upon describing and categorising tourism and travel experiences from a supply-side perspective, with travellers themselves defined in terms of their motivations and interests. While the tourism field can lay claim to several significant milestone contributions, there have been few recent attempts at a rigorous re-theorization of the issues arising from the travel/transformation nexus. The opportunity to explore the socio-cultural dimensions of transformation through travel has thus far been missed. Bringing together geographers, sociologists, cultural researchers, philosophers, anthropologists, visual researchers, literary scholars and heritage researchers, this volume explores what it means to transform through travel in a modern, mobile world. In doing so, it draws upon a wide variety of traveller perspectives - including tourists, backpackers, lifestyle travellers, migrants, refugees, nomads, walkers, writers, poets, virtual travellers and cosmetic surgery patients - to unpack a cultural phenomenon that has captured the imagination since the very first works of Western literature.*

**Gulliver's Travels Jun 19 2022 Jonathan Swift's masterpiece is the finest satire in the English language. Shipwrecked traveler Lemuel Gulliver finds himself washed ashore in Lilliput, a kingdom populated by tiny people. Fascinated by their exotic visitor, the Lilliputians enlist Gulliver's services in their bitter civil war. But Gulliver becomes the object of a court intrigue and has to make a hasty escape. On his next voyage, his ship is blown off course to Brobdingnag, whose giant inhabitants strike him as horrific and occasionally revolting. A third journey takes him to Laputa, a floating island occupied by pedantic scientists and philosophers. Finally, he encounters a society of rational horses, the Houyhnhnms, and witnesses the appalling behaviour of their servants the Yahoos, a group who are in many ways disturbingly similar to Man at his most bestial. Swift's brilliantly original story is a timeless portrait of the human condition in all its misery and majesty.**

**Shelley's Eye Mar 16 2022 Percy Bysshe Shelley joined the deluge of sightseers that poured onto the Continent after Napoleon's defeat in 1814, and over the next eight years Shelley followed major travelling trends, visiting Switzerland in 1816 and Italy from 1818. This book is informed by original research on a wide**

**range of period travel writings, including Mary Shelley and Shelley's neglected collaboration, *History of a Six Weeks' Tour* (1817), in which 'Mont Blanc' first appeared. Fully responsive to the culture of travel, Shelley's travel prose and poetry form fascinating conversations with major Romantic travellers like Byron, Wollstonecraft, and Wordsworth, as well as lesser-known but widely read travel writers of the day, including Morris Birkbeck, Charlotte Eaton, and John Chetwode Eustace. In this provocative study, Benjamin Colbert demonstrates how the Grand Tour remains a vital cultural metaphor for Shelley and his contemporaries, under pressure from mass travel and popular culture. Shelley's travel prose and 'visionary' poetry explore motives of perception underlying travel discourse and posit an authentic 'aesthetic vision' that reconfigures social, historical, and political meanings of 'sights' from the perspective of an ideal tourist-observer. Shelley's *Eye* offers a new perspective on Shelley's intellectual history. It is also a timely and important contribution to recent interdisciplinary scholarship that aims to re-evaluate Romantic idealism in the context of physical, experiential, or material cultural practices.**

**Travels in Paradox Dec 25 2022 This innovative volume focuses on tourism through the twin lenses of cultural theory and cultural geography. Presenting a set of innovative case studies on tourist places around the world, the contributors explore the paradoxes of the tourist experience and the implications of these paradoxes for our broader understanding of modern identity as simultaneously grounded and mobile. The book examines how tourism reveals the paradoxical ways that places are both mobile and rooted, real and fake, inhabited by those who are simultaneously insiders and outsiders, and both subjectively experienced and objectively viewed. This rich blend of empirical and theoretical analysis will be invaluable for cultural geographers, anthropologists, and sociologists of tourism.**

**A Century of Travels in China Dec 13 2021 Writings of travelers have shaped ideas about an evolving China, while preconceived ideas about China also shaped the way they saw the country. *A Century of Travels in China* explores the impressions of these writers on various themes, from Chinese cities and landscapes to the work of Europeans abroad. From the time of the first Opium War to the declaration of the People's Republic, China's history has been one of extraordinary change and stubborn**

***continuities. At the same time, the country has beguiled, scared and puzzled people in the West. The Victorian public admired and imitated Chinese fashions, in furniture and design, gardens and clothing, while maintaining a generally negative idea of the Chinese empire as pagan, backward and cruel. In the first half of the twentieth century, the fascination continued. Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society, yet most still knew very little about the country. But what about those few people from the English-speaking world who had first-hand experience of the place? What did they have to say about the "real" China? To answer this question, we have to turn to the travel accounts and memoirs of people who went to see for themselves, during China's most traumatic century. While this book represents the work of expert scholars, it is also accessible to non-specialists with an interest in travel writing and China, and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre.***
