How to Read the Chinese Novel Aug 01 2021 Fiction criticism has a long and influential history in pre-modern China, where critics would read and reread certain novels with a concentration and fervor far exceeding that which most Western critics give to individual works. This volume, a source book for the study of traditional Chinese fiction criticism from the late sixteenth to the early twentieth centuries, presents translations of writings taken from the commentary editions of six of the most important novels of pre-modern China. These translations consist mainly of tu-fa, or "how-to-read" essays, which demonstrate sensitivity and depth of analysis both in the treatment of general problems concerning the reading of any work of fiction and in more focused discussions of particular compositional details in individual novels. The translations were produced by pioneers in the study of this form of fiction criticism in the West: Shuen-fu Lin, Andrew H. Plaks, David T. Roy, John C. Y. Wang, and Anthony C. Yu. Four introductory essays by Andrew H. Plaks and the editor address the historical background for this type of criticism, its early development, its formal features, recurrent terminology, and major interpretive strategies. A goal of this volume is to aid in the rediscovery of this traditional Chinese poetics of fiction and help eliminate some of the distortions encountered in the past by the imposition of Western theories of fiction on Chinese novels. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Jewish New Testament Commentary Sep 21 2020 The New Testament is a Jewish book, written by Jews, initially for Jews. Its central figure was a Jew. His followers were all Jews; yet no translation--except this one--really communicates its original, essential Jewishness. Uses neutral terms and Hebrew names. Highlights Jewish features and Jewish references. Corrects mistranslations from an anti-Jewish theological basis. Freshly rendered into English using the Greek texts, this is a must for learning about first-century faith.

Theological Bible Commentary Jan 18 2023 Most one-volume Bible commentaries focus on standard scholarly issues, answering questions such as, who wrote the book? who was addressed? and how is the book structured? In contrast, this is the first one-volume commentary to emphasize theological questions: what does each biblical book say about God? how does the book describe God and portray God's actions? and who is God in these biblical books? This volume meets the need for a resource that puts the best of scholarship in conversation with the theological claims of the biblical text.

Tales of the End Feb 19 2023 The Book of Revelation presents the fascinating and terrifying story of what John reports happening to him while on the Mediterranean island of Patmos. It is a far more interesting story than the tired predictions of other would-be prophets whose many forecasts of the future have always failed to materialize. *Tales of the End* invites readers to hear John's story anew. Rather than forcing John's story into our time, it takes the reader back to the time of its original telling, exploring both what is told and how it is told examining its plot, characters, point of view, temporal perspective, narrator, listener, author and audience. Only then can we ask how this story bears on the modern world and how it addresses enduring human concerns. David Barr's narrative analysis uncovers a complex and compelling story addressed to the communities of Jesus followers in first-century Asia Minor, a story told vividly so that the audience can participate in John's extraordinary experience and so be transformed, adopting new values, new perspectives; indeed, a new understanding of what the world is really like.

L'oeuvre de David l'Invincible et la transmission de la pensée grecque dans la tradition arménienne et syriaque Jun 30 2021 David, a member of the Platonic school in Alexandria in the sixth century, is credited with several commentaries on Aristotle's logic: those commentaries, and their Armenian translations, form the subject of this book. An introduction, which discusses David and his place in the Greek and the Armenian traditions, is followed by a series of studies of the relations between the Greek texts and their Armenian translations: the aims are, first, to assess the value of the translations for the constitution of the original Greek, and secondly, to consider the ways in which the Armenian translations adapted the texts to suit their new readership. More generally, the book is concerned with the ways in which Greek thought was exported abroad to Armenia and to Syria: it is required reading for anyone who is interested in the circulation of ideas between east and west. Contributors include: Sen Arevshatyan, Jonathan Barnes, Valentina Calzolari, Henri Hugonnard-Roche, Gohar Muradyan, Michael Papazian, Manea Shirinian, Clive Sweeting, Albert Stepanyan, Aram Topchyan.

Job Jun 18 2020 General editor Lloyd J. Ogilvie brings together a team of skilled and exceptional communicators to blend sound scholarship with life-related illustrations. The design for the Preacher's Commentary gives the reader an overall outline of each book of the Bible. Following the introduction, which reveals the author's approach and salient background on the book, each chapter of the commentary provides the Scripture to be expounded. The New King James Bible has been chosen for the Preacher's Commentary because it combines with integrity the beauty of language, underlying Hebrew and Greek textual basis, and thought-flow of the 1611 King James Version, while replacing

obsolete verb forms and other archaisms with their everyday contemporary counterparts for greater readability. Reverence for God is preserved in the capitalization of all pronouns referring to the Father, Son, or Holy Spirit. Readers who are more comfortable with another translation can readily find the parallel passage by means of the chapter and verse reference at the end of each passage being expositied. The paragraphs of exposition combine fresh insights to the Scripture, application, rich illustrative material, and innovative ways of utilizing the vibrant truth for his or her own life and for the challenge of communicating it with vigor and vitality.

Rather than a verse-by-verse approach, the authors have crafted chapters that explain and apply key passages in their assigned Bible books. Readers will learn to see Christ in all aspects of Scripture, and they will be encouraged by the devotional nature of each exposition presented as sermons and divided into chapters that conclude with a "Reflect & Discuss" section, making this series ideal for small group study, personal devotion, and even sermon preparation. The Politics of Knowledge Feb 24 2021 The usefulness and political implications of Area Studies programs are currently debated within the Academy and the Administration, where they are often treated as one homogenous and stagnant domain of scholarship. The essays in this volume document the various fields' distinctive character and internal heterogeneity as well as the dynamism resulting from their evolving engagements with funders, US and international politics, and domestic constituencies. The authors were chosen for their long-standing interest in the intellectual evolution of their fields. They describe the origins and histories of US-based Area Studies programs, highlighting their complex, generative, and sometimes contentious relationships with the social science and humanities disciplines and their diverse contributions to the regions of the world with which they are concerned.

Haggai and Zechariah 1-8 Feb 07 2022 Covers two prophets who were active circa 520 B.C.E. during the early Persian period, the time of the restoration of the Israelite community after the return from exile in Babylonia. Through a careful analysis of the two Biblical books, the author shows that, although they were contemporaries, Haggai and Zechariah were active in significantly divergent ways. Haggai was an activist, instrumental not only in facilitating the rebuilding of the Temple but also in addressing the concerns and needs of the people while the rebuilding program was under way. In contrast, the visions of Zechariah present someone "doing the theology" of restoration. A reflective thinker more than a social activist, Zechariah reports that God is acting to correct earlier wrongs and to rectify current inequities. Oracles and editorial comment included in the Book of Zechariah extend the prophet's visionary experience from reflection to action. As the author demonstrates, the contrasting approaches of Zechariah and Haggai reflected in the different forms of literature embodied in their books represent a form of prophetic pluralism.

The Extent of the Atonement Apr 09 2022 The extent of Christ's atoning work on the cross is one of the most divisive issues in evangelical Christianity. In *The Extent of the Atonement: A Historical and Critical Review*, David L. Allen makes a biblical, historical, theological, and practical case for a universal atonement. Through a comprehensive historical survey, Allen contends that universal atonement has always been the majority view of Christians, and that even among Calvinist theologians there is a considerable range of views. Marshalling evidence from Scripture and history, and critiquing arguments for a limited atonement, Allen affirms that an unlimited atonement is the best understanding of Christ's saving work. He concludes by showing that an unlimited atonement provides the best foundation for evangelism, missions, and preaching.
